We started to operate in izmir in 2015. We produce products that add value to your spaces with our team that is sensitive in production, selective in materials, and has high design and manufacturing skills.

At Ananas, we select the best lumber. Our designers and craftsmen work together to shape the lumber with the utmost care. Our design and production approach are combines innovative manufacturing technologies and craftsmanship. Every product we design and produce, different traces in terms of pattern and texture. So each product is unique. It also strengthens the interaction between the user and the product.

RAMİ Children's Library and Playground  
Eyüpsultan - İstanbul

Ananans x Budero

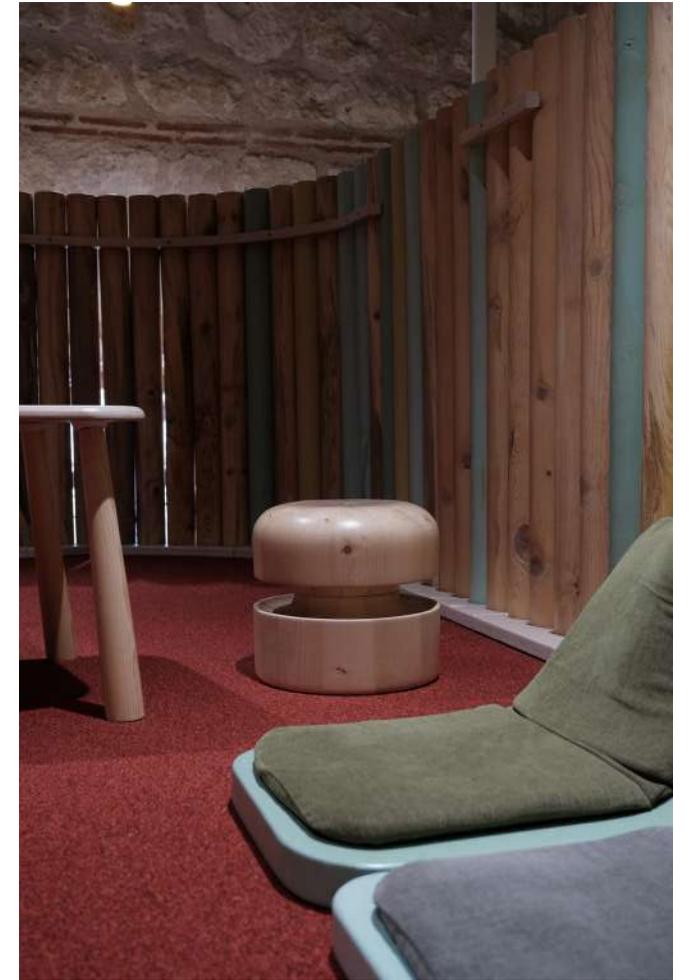

Production of Interior Space  
Furniture and Play Equipments

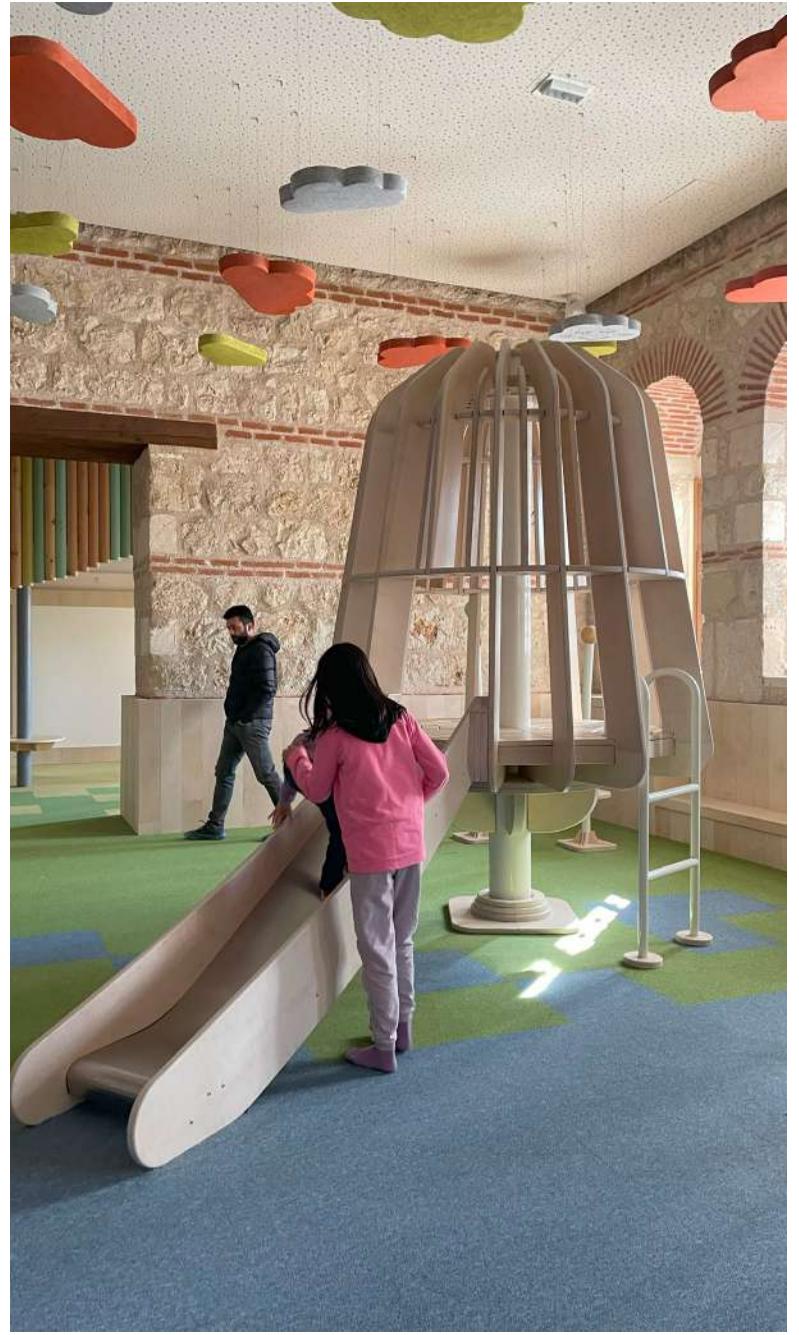

"Rami Children's Library and Playground", whose project was carried out by the Ministry of Culture and Tourism of the Republic of Turkey, designed and implemented in cooperation with Ananas & Budero, consists of modules and structures that trigger the physical and cognitive development of 2-5 and 5-8 age groups. Children's library furniture and play equipment, all of which are handcrafted, have been reinterpreted in accordance with the architectural texture and characteristics of the space. Natural colors and materials that would not create hierarchy were preferred throughout the products.

The existing space has been reshaped with a sustainable and trans-formable safe space usage scenario created for child users and parents from different age groups. While wood and its derivatives were used in the space consisting of physical ability stations, library and magnet wall, rope climbing loft and barrier, table seating and activity units, slide area, isolated area and parental control point, nature and human-friendly surface applications were preferred.

GIZEM KUZU Bakery

Özgür Hiçyılmaz

Production of Interior Space  
Furniture and Decorative Accessories

We provided furniture support for Gizem Kuzu Bakery in İzmir, known for its delicious donuts. The space features brass-painted metals, solid ash wood, and natural ash veneer surfaces.

Designed by Özgür Hiçyılmaz, highlights include an extraordinary slatted bar/bench extending from entrance to end, a high glass separator/laminate for social distancing, and a unique curved stool. The sofa, made from artificial leather and ash veneer, offers comfortable seating. Minimalist kiln-dried ash wood floating shelves adorn the walls.

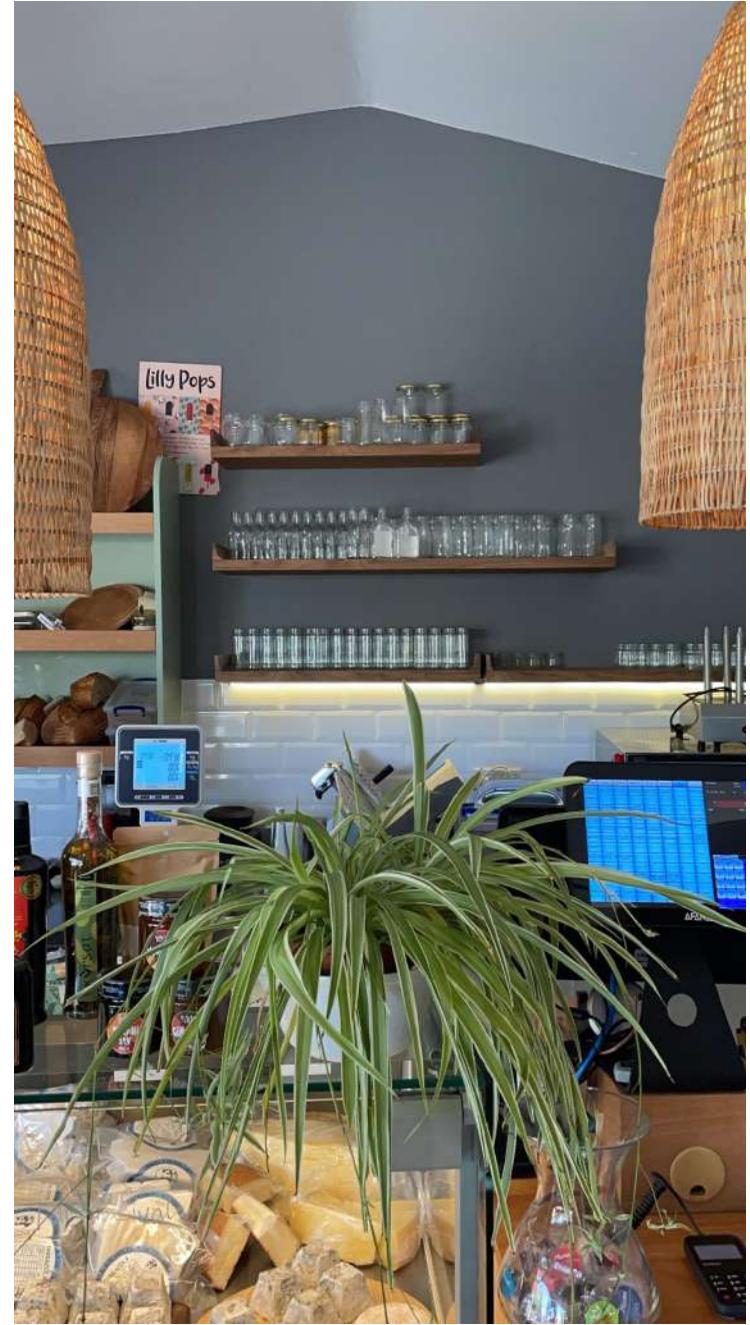

Deli' gibi / Alaçatı - İzmir

Custom Production by Ananas

Furniture Design and Production

LEONE Patisserie / İzmir

Serdar Deniz - Yasemin Deniz

Production of Interior Space in Factory  
Furniture and Decorative Accessories

After the Urla and Alsancak branches, we created beautiful products for Leone Patisserie at İzmir Hilltown AVM. The cozy space, designed by architects Yasemin Deniz and Serdar Deniz, features furniture made from ash wood, natural ash veneer, and white lacquered surfaces.

The patisserie includes a wine rack, barista bar, cake cabinet, sandwich cabinet, safe furniture, doors, service bar, and a croissant counter. Both indoor and outdoor sofas provide pleasant seating areas.

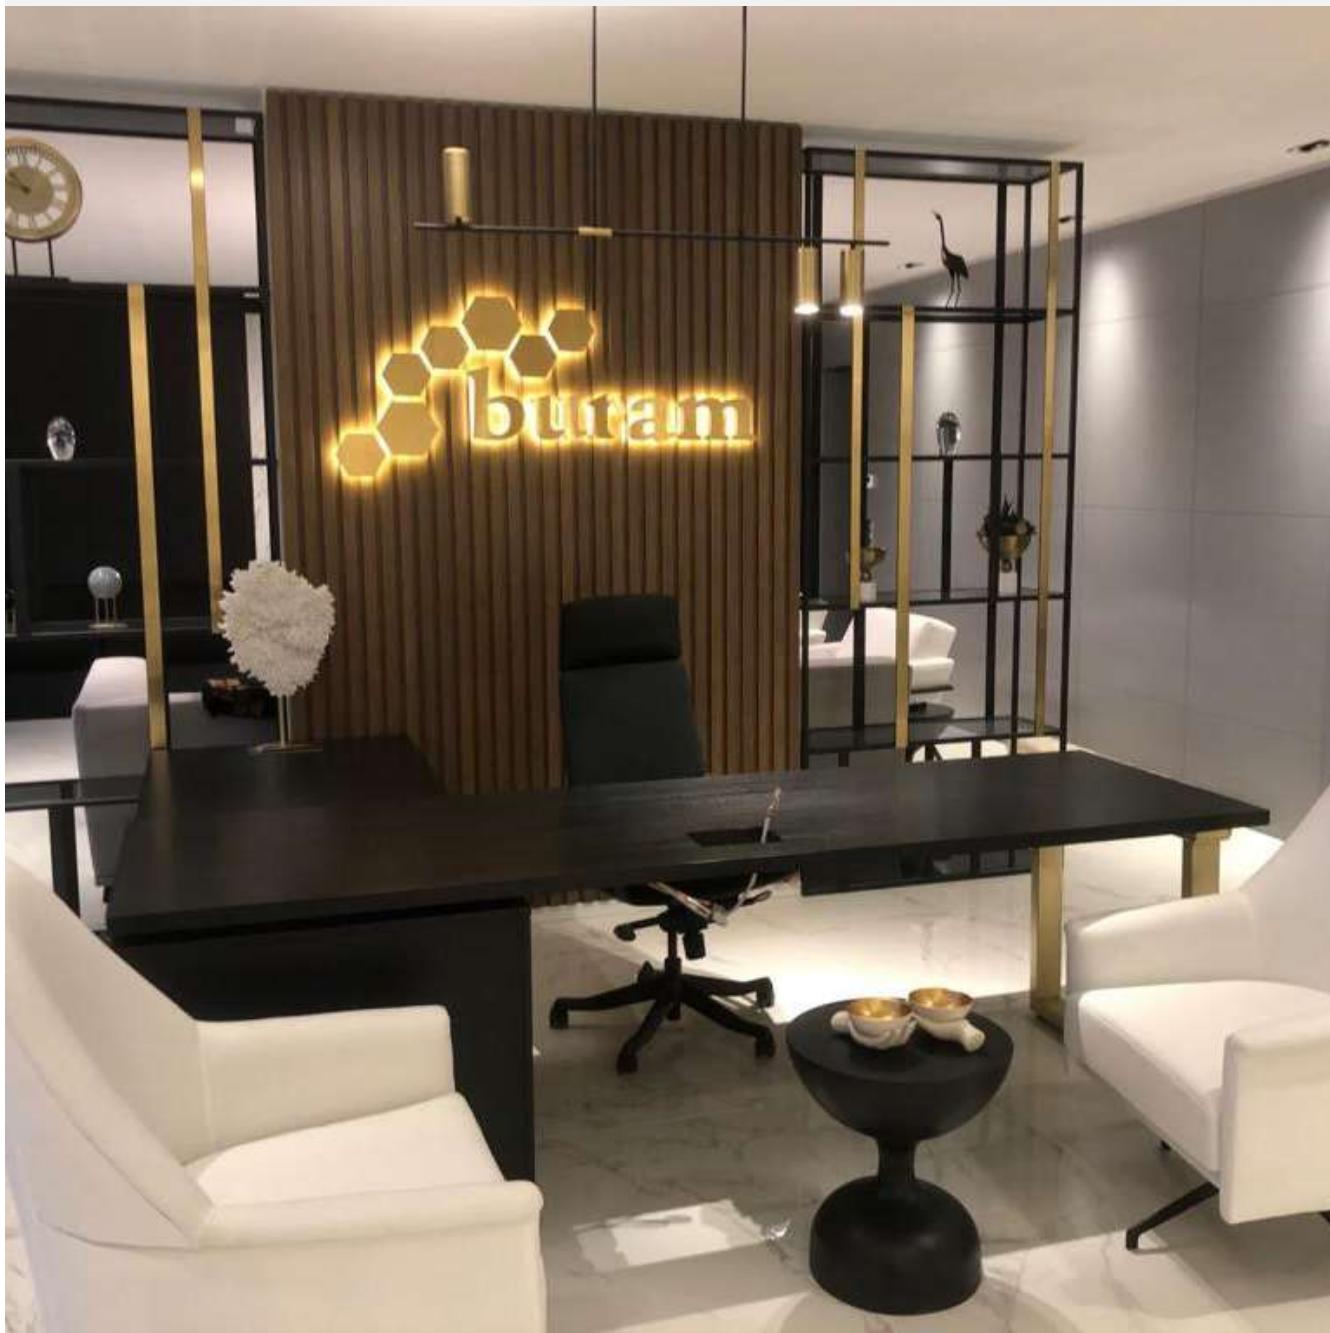

"Crafted from natural ash wood veneer and high-quality lacquered raw MDF, our couches stand out both indoors and outdoors, adorned with artificial leather upholstery. The French patisserie features a striking two-piece matte lacquered panel alongside metal separators and a door. Brass-colored skirting boards and cedar railings, complemented by brass metal separators, enhance the furniture's visual appeal. Outdoors, a solid ash wood table is perfect for enjoyable gatherings."

Alaçatı Evi / İzmir

Custom Production by Ananas

Production of Interior Space  
Furniture and Decorative Accessories

As the Ananas team, we designed and implemented the furnishings of a classic Alacati house. This included exterior doors, window shutters, barriers, interior doors, kitchenette, corridors, stair hallways, bookshelves, separators, and modular furniture. All elements were custom-designed and produced with Ananas quality, considering the Alacati lifestyle and the customer's needs for seamless interior and exterior space integration.

In the bedroom, we designed and produced the makeup mirror, stool, headboard, and large nightstands. Storage areas were tailored for the cellar and laundry room, with covered furniture in the laundry room and open shelving in the cellar. Stair railings were made from solid oak, and all skirting boards matched the door jambs in gray and wooden textures. The double-leaf doors and door handles on the upper floor were taller than standard and featured transparent polished wings.

We also created a gray-blue wooden bookcase for book-loving homeowners, complementing the retro green dominant in the guest bedroom. The furniture in the bedroom, cellar, and laundry room was designed and produced with the same attention to detail.

BIB

Production of Interior Space  
Furniture and Decorative Accessories

The design process of the Phd Collectibles store was completed by Breakfast in Bed and its production was carried out by Ananas Woodworking. The products are designed using metal details and panel materials. In addition to materials such as OSB, mahogany-looking MDF lam and metal-looking MDF lam, stainless chrome and LED lighting were also used in product details. The store was designed to display collector's items using shelves, bookcases and pedestals. Phd Collectibles has now opened its doors for collectors!

MISK ALSANCAK

Stüdyo AB

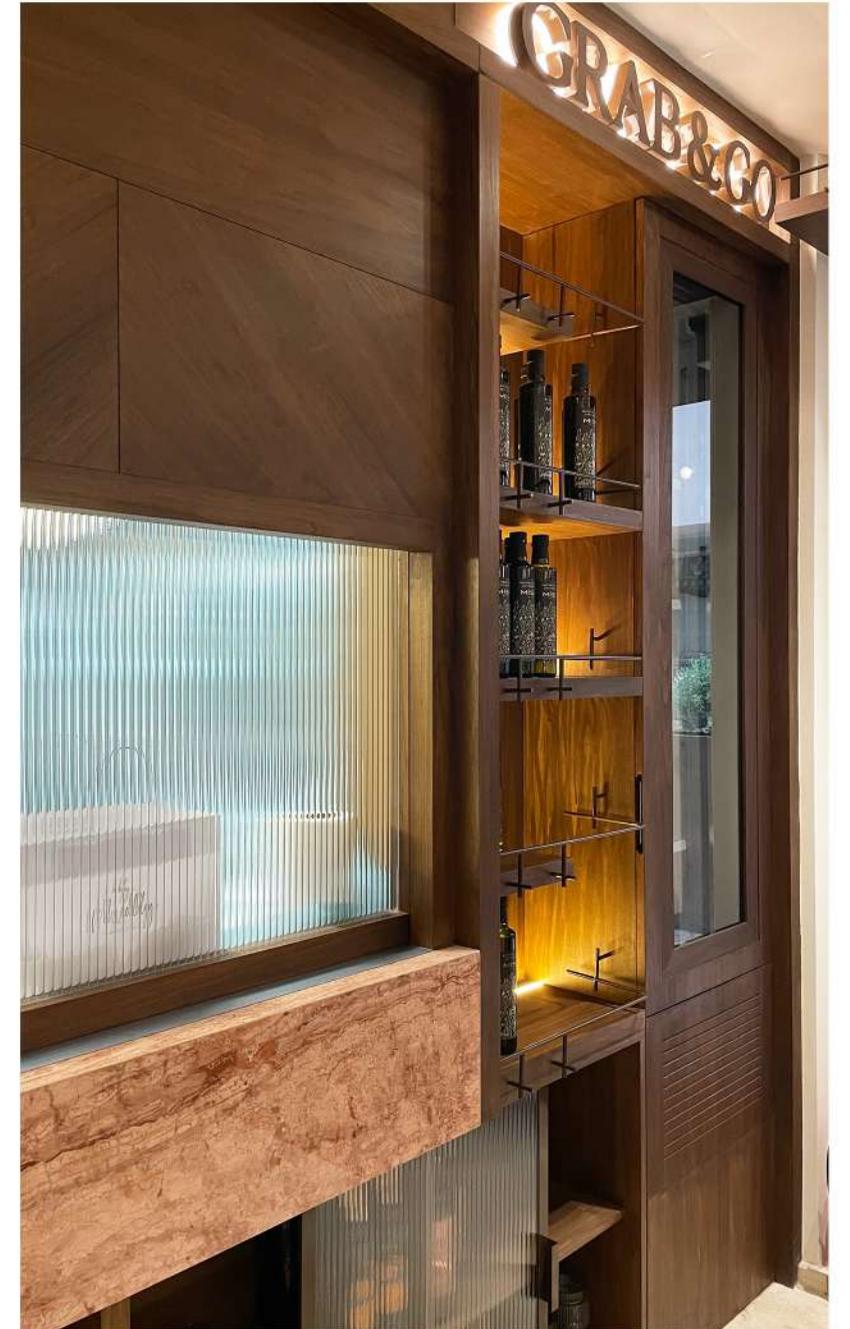

Production of Interior Space  
Furniture and Decorative Accessories

In the Misk Alsancak project, in collaboration with Studyo AB, we created a modern and functional space as Ananas Woodworking. Using walnut veneer, walnut-look MDF laminate, raw MDF, and galvanized sheet metal, we crafted an elegant atmosphere. For surface finishes, we combined aesthetics and durability with water-based varnish and lacquer polish.

The project featured standout furniture pieces such as MDF laminate benches and upholstery, a walnut-veneered separator, an industrial kitchen, walnut-clad columns, and a lacquered bar-back shelf unit with plexiglass details. Floating shelves running throughout the space, metal barriers, frameless doors, and galvanized countertops reinforced the modern design. Additionally, the Floral Corner cabinets, table, and flower display vases added a refined touch to the space. All these furniture pieces and service units were meticulously crafted by Ananas Woodworking, ensuring every detail was carefully executed to balance aesthetics and functionality.

TEZEL EVI

Re Mimarlik

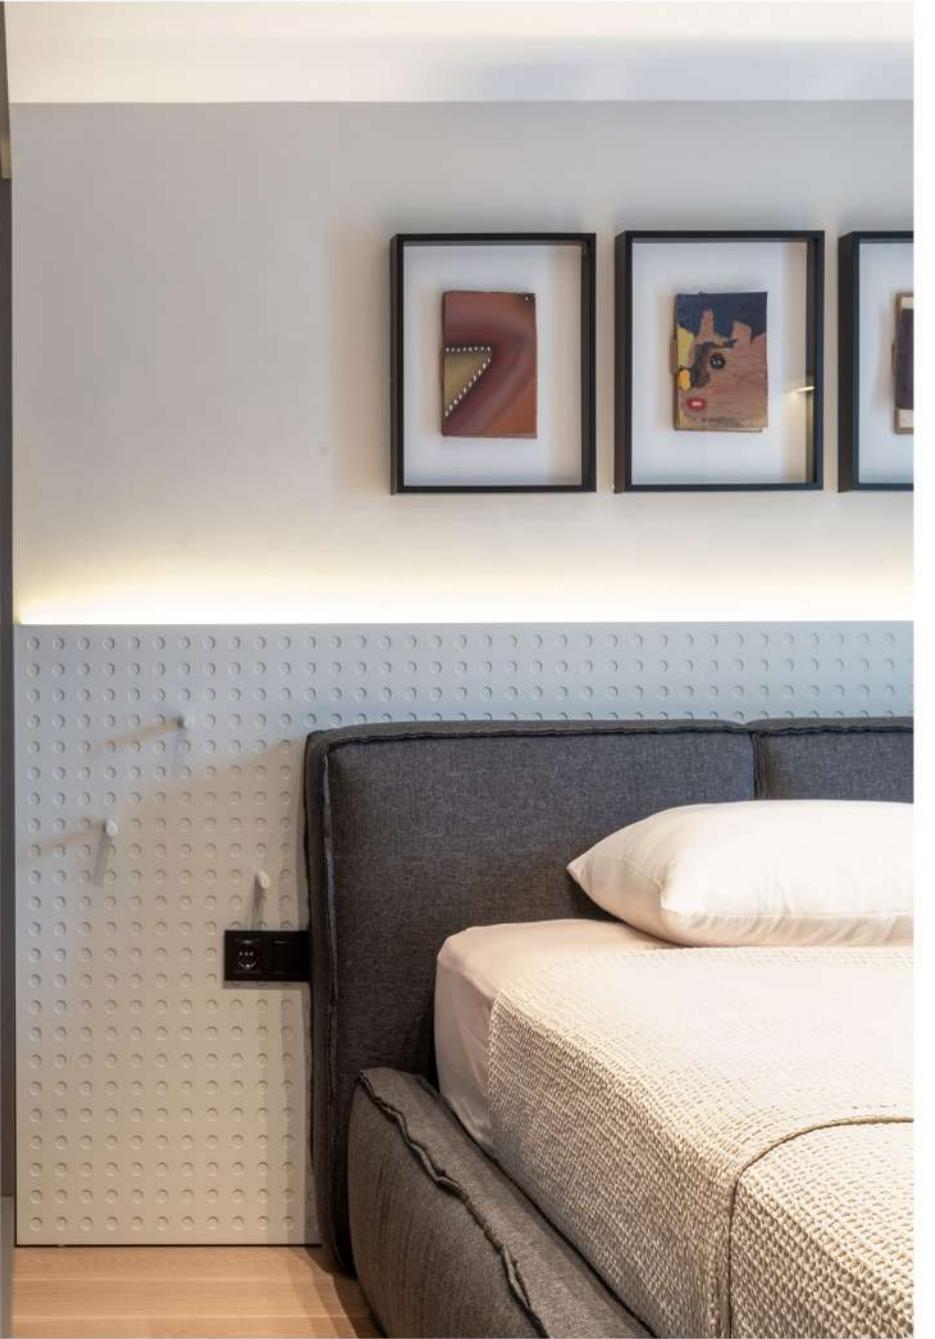

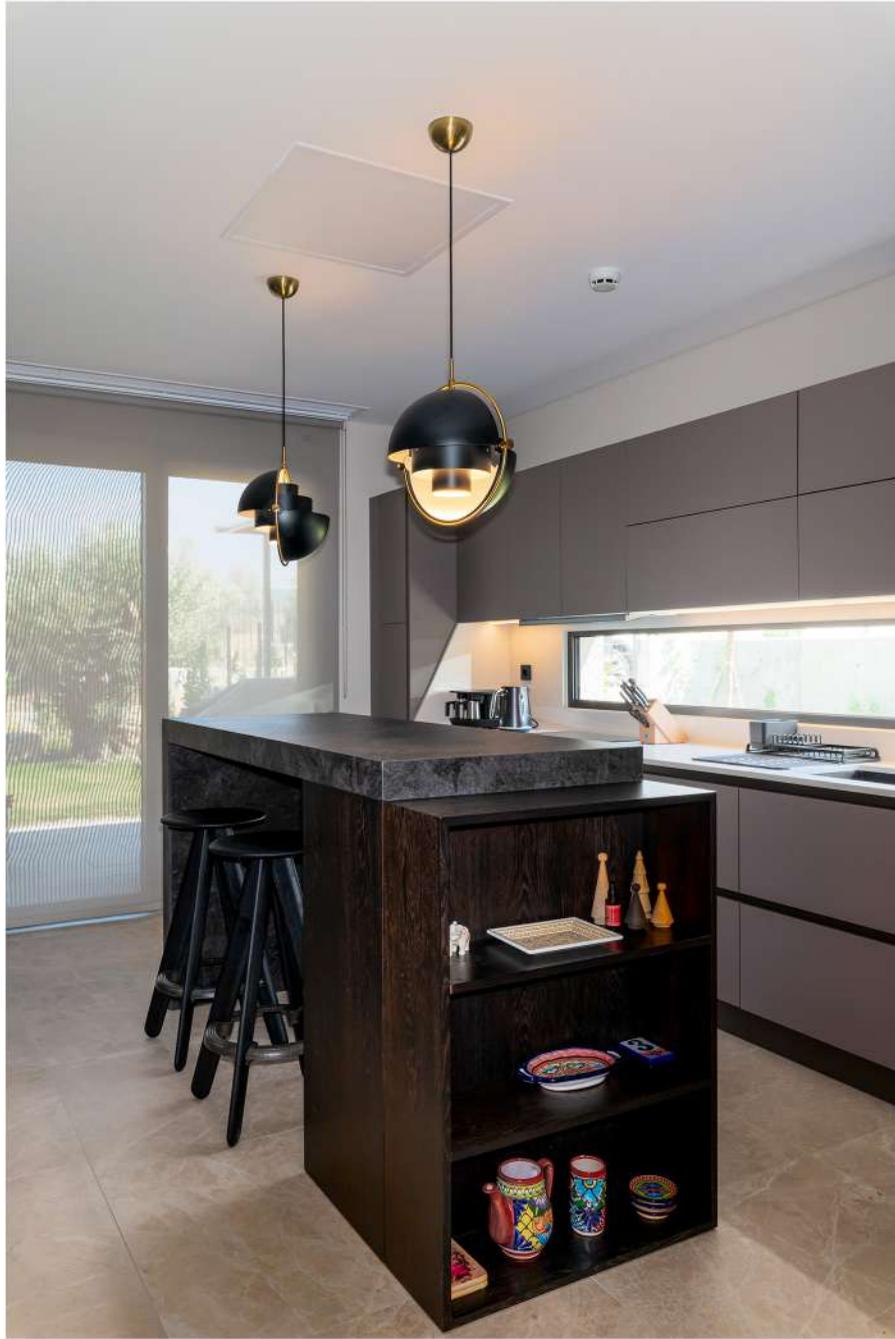

Production of Interior Space  
Furniture and Decorative Accessories

In this project located in Kekliktepe, Urla, we carried out the production of fixed furniture as Ananas Woodworking, in collaboration with Re Mimarlık. Using oak veneer, raw MDF, MDF laminate, and metal materials, we created an elegant and functional living space. With lacquer and water-based varnish finishes, we achieved a natural yet modern touch.

In the living room, a striking oak-veneered bookshelf with an illuminated design and oval-edged finish harmonizes with the high ceiling, while the oak-veneered and metal separator at the entrance elegantly defines the space. The youth rooms feature colorful cabinets and CNC-crafted headboards, creating a vibrant atmosphere. In the master bedroom, a backlit mirror, glass-fronted wardrobes, and a vanity table with metal details offer a sophisticated elegance.
